"anchor" = TIMES

a = arrival @ destination  
p = pickup time

who is best suited for uber/lyft/buses  
uber central / lyft concierge - company sends / dispatch  
- list of scheduled trips on

mark trips as uber/lyft, triggers on time to call  
non dedicated providers + veriphone

Care service vs uber/lyft/ND Providers

above & beyond

- ☐ do you want routes
- ☐ schedules can be given

just give schedu list

Output: request time  
trip ID.

standby time - get PAID

Rideshake Ride ID

1 vehicle; trip 1 + trip 2 + trip 3

Garage locations
